- 1    Q.    Reference: IR-PUB-NLH-32
- 2    Do the returns listed in the revised response to IR-PUB-NLH-32 include revenue
- 3    from an RSP adjustment on industrial customer rates based on 2007 cost of service
- 4    factors?

- 6
- 7    A.    The revenue from RSP adjustments on Industrial Customer and Utility customer
- 8    rates are recorded in the balance sheet as an increase or decrease to the RSP
- 9    balance. As a result, excluding financing differences, there would be no impact to
- 10   revenue by calculating the RSP adjustment using the 2007 or 2013 cost of service
- 11   factors.
