

SIR-IC-NLH-006
NLH 2013 Second Interim Rates Application

Page 1 of 1

1 Q. Please confirm that if the methods proposed by Hydro for allocation of the load
2 variation provision from September 30, 2013 onwards were applied, as of March
3 30, 2014 industrial customers would be owed approximately \$750,000 from the
4 Segregated Load Variation provision (i.e. 5% of \$15 million), increasing by
5 approximately \$100,000 per month (5% of \$2 million approximate Monthly
6 adjustment)

7

8

9 A. Based upon the March 2014 RSP report, there would be an Industrial Customer
10 credit balance of \$832,000 using the energy allocation method for the load
11 variation provision as proposed by Hydro in its GRA.¹

¹ \$832,000 = 5.39% times \$15,437,176.
