

SIR-IC-NLH-007
NLH 2013 Second Interim Rates Application

Page 1 of 1

1 Q. Please confirm that if the Board eliminated the RSP Load Variation provision
2 starting January 1, 2014, the industrial customers would be owed approximately
3 \$8.2 million from the Segregated Load Variation Provision that accrued prior to
4 December 31, 2013.

6

7 A. No.

8

9 In Order No. P.U. 29(2013) the Board states as follows:

10 *"The parties agree that changes to way that the load variation is allocated in the
11 RSP should be addressed in Hydro's general rate application and that Hydro should
12 account separately for the load variation amounts beginning on September 1, 2013.
13 The Board will therefore postpone consideration of these proposed changes to the
14 RSP rules and will order that, beginning on September 1, 2013, the load variation
15 amounts be segregated."*

16

17 The total amount (Industrial Customers and Utility) accrued in the segregated load
18 variation provision as of December 31, 2013 was \$8,200,495. The amount of the
19 segregated RSP Load Variation balance to be allocated to the Industrial Customers
20 will be determined based upon the allocation method to be approved by the Board
21 in dealing with the current GRA.
