

- 1 Q. Provide proposed revised wording for the Rate Stabilization Plan (Interim), Section
2 A: Hydraulic Production Variation to provide for the transfer, on an interim basis, of
3 \$29.4 million from the Hydraulic Production Variation component of the Rate
4 Stabilization Plan to be recognized as revenue by Hydro in 2014 on an interim basis.
5
6
7 A. Hydro would recommend adding a clause to the Rate Stabilization Plan rules to
8 indicate that the RSP balance “shall be adjusted by any other amount as ordered by
9 the Board”. This approach would be consistent with Section II.6, Page 18 of the
10 current Rate Stabilization Account (“RSA”) Clause for Newfoundland Power.
