1 Q. Further to SIR-PUB-NLH-20 if Board approval of this application is not received by a
2 date acceptable to Hydro, does Hydro intend to file a revised application relating to
3 2014 Industrial Customer rates?

6 A. As stated in response to SIR-CA-NLH-021, the Board has the authority to approve
7 certain elements of Hydro's application and not approve others, as well as the
8 authority to deal with part of an application at one time and the remainder of an
9 application in a subsequent order. In Hydro's opinion, the Board has the power to
10 split or sever the portion of the Application regarding IC rates and treat this portion
11 separately. Therefore, a revised application relating only to 2014 Industrial
12 Customer rates is not necessary.
