

1 Q. **Reference: At page 45 of the report, it was the opinion of Liberty that the following**
2 **costs were recommended for disallowance:**

3 **PUB Outage Inquiry \$958,000**
4

5 a) **Please confirm Liberty’s understanding is that the PUB outage inquiry figure**
6 **of \$958,000 is Hydro’s estimate of Hydro’s portion of Liberty’s costs to be**
7 **charged to the PUB for work completed as of December 31, 2014.**
8

9 b) **Please provide a breakdown of the \$958,000 referable to work Liberty carried**
10 **out with respect to Phase 1 and Phase 2 in 2014.**
11

12
13 A. Liberty responds to the question’s two parts as follows:
14

15 (a) Liberty confirms that it took the \$958,000 from that estimate, which the response to
16 PR-PUB-NLH-101 Attachment 1 page A3 included. However, Liberty understood
17 the response as including costs that are “not limited to Liberty”, as noted in the
18 response.
19

20 (b) As noted in a) Liberty does not confirm that the \$958,000 relates solely to work
21 completed by Liberty. Liberty does not have information on how the \$958,000 was
22 calculated or on the full costs of the Board’s Investigation and Hearing into Supply
23 Issues and Power Outages.
