

1 **Q. [ELG] – Please state whether the Company’s proposed net salvage values have been**  
2 **developed on an equivalent precise age relationship as reflected in the ELG**  
3 **calculation for calculating the life portion of the Company’s depreciation request.**  
4

5 A. Net salvage estimates are not based on an ELG or ALG basis. The net salvage percents  
6 are determined through judgment with consideration given to several factors such as: (i)  
7 the existing net salvage estimate approved by the Board; (ii) the historical net salvage  
8 analyses using company data; and (iii) net salvage estimates used by other electric utility  
9 companies.
