

1 **Q. [Production Net Salvage] – Please state the Company’s intention for the plant site**
2 **(i.e., the land) if and when the Company retires a generating unit and demolishes**
3 **the facility. In other words, does the Company plan on retaining it for a future**
4 **generating station, selling the land, or simply letting it sit idle? Further, provide all**
5 **support and justification for the position taken in the Company’s response.**
6

7 A. The Company currently has no intention to retire any generating units and subsequently
8 demolish an associated facility. Therefore it has no intention to change the status of any
9 generating facility site. If such circumstances arise in future, the Company would
10 consider engineering and economic factors specific to the site to ensure any disposition of
11 the land would be consistent with the continued provision of least cost, reliable service to
12 the Company’s customers over the long term.
