

1 **Q. [Production Life] – Please provide a copy of the Company’s two most recent long-**
2 **term generation resource plans.**

3
4 A Newfoundland Power does not have long term generation resource plans.

5
6 Newfoundland Power is primarily an electrical distribution utility. Over 90% of its
7 customers’ power requirements are purchased from Newfoundland and Labrador Hydro
8 (“Hydro”). Hydro has the responsibility of completing long term generation resource
9 plans for the Island of Newfoundland.
