

1 **Q. [Net Salvage] – Please provide the annual level of expense associated with**
2 **emergency replacement situations, by account or subaccount, reflected in the cost of**
3 **removal amounts in the depreciation study for the past 10 years.**
4

5 A. The requested information is not available, as Newfoundland Power does not track costs
6 associated with emergency replacement situations.
7

8 Although the Company occasionally prepares estimates of costs incurred related to
9 emergency situations, for example the cost incurred responding to a major storm, such
10 estimates are not completed in sufficient detail to reconcile with the cost of removal
11 amounts in the Company's depreciation studies.
