

1 **Q. [Net Salvage] – Does the Company receive any amount from government entities**  
2 **when it is requested to relocate plant due to street widening or other relocation**  
3 **requirements? To the extent the Company does receive any such funds, provide the**  
4 **specific accounting employed by the Company and the basis for such treatment**  
5 **(e.g., booked to the reserve, booked as a credit to plant, etc). Finally, provide the**  
6 **amount received, by year, for the past 10 years, segregated into plant accounts or**  
7 **subaccounts pertaining to the plant either added or retired in association with the**  
8 **relocation.**

9  
10 A. Newfoundland Power does receive amounts from government entities related to street  
11 widening or other relocation requirements. The accounting treatment of these amounts is  
12 explained in the response to Request for Information CA-NP-051.

13  
14 Newfoundland Power does not record such amounts in a manner that would readily  
15 enable the segregation of amounts received from government entities on either an account  
16 or sub-account basis. Newfoundland Power therefore cannot provide the requested  
17 information within the time allotted for response to Requests for Information in this  
18 proceeding.
