

**Q. [Account 361.12 & .13 ] – As it relates to Accounts 361.12 and .13, please provide the following information:**

- a. the quantity of conductor by type on a dollar and linear foot basis;**
- b. the linear feet by type of overhead conductor retired by year for the past 10 years;**
- c. the number of linear feet of wire retired without replacement by year for the past 10 years; and**
- d. a copy of each work order, in which the Company retired more than one linear mile of overhead conductors for each year, during the past 10 years.**

- A.**
- a.** The requested information is not available. Newfoundland Power does not record information on the quantity of conductor in the referenced accounts by type on a dollar or linear foot basis. The unit of property used for conductor is the kilogram. Data is not available to derive the requested information from existing records. Sub-account 361.12 includes 6,142,211 kilograms of conductor; sub-account 361.13 includes 1,195,341 kg of conductor.
  - b.** The requested information is not available. Newfoundland Power does not record information on retirement of overhead conductor by type or linear foot. Retirement cost data at the account or sub-account level is detailed in Appendix B of the Depreciation Study. The quantity of overhead conductor, in kilograms, retired by year over the past 10 years is provided in Table 1.

**Table 1**  
**Conductor Retirements (kg)**

	<u>Acct 361.12</u>	<u>Acct 361.13</u>
<b>2001</b>	23,532	13,597
<b>2002</b>	54,191	77,298
<b>2003</b>	43,799	67,595
<b>2004</b>	17,283	50,534
<b>2005</b>	19,199	12,997
<b>2006</b>	19,798	11,489
<b>2007</b>	21,347	62,533
<b>2008</b>	20,572	9,926
<b>2009</b>	30,351	14,190
<b>2010</b>	22,506	14,857

- c.** The requested information is not available. Newfoundland Power does not record this information.

- 1           d.       The requested information is not available. Newfoundland Power does not record  
2                   this information.
