

- 1 Q. [Account 361.2] – As it relates to Account 361.2, please provide the following
 2 information:
 3
 4 a. the quantity of underground cable by type on a dollar and linear foot basis
 5 and when each different type of cable was installed;
 6 b. the linear feet by type of underground cable retired by year for the past 10
 7 years;
 8 c. the number of linear feet of underground cable retired without replacement
 9 by year for the past 10 years;
 10 d. whether it is the Company's policy to retire the investment in this account in
 11 place when possible;
 12 e. the dollar level of retirements by year for the past 10 years that were
 13 abandoned in place versus removed; and
 14 f. a copy of each work order, in which the Company retired more than one
 15 linear mile of underground cable for each year, during the past 10 years.
 16
 17 A. a. Attachment A provides the quantity in metres of underground cable by type, and
 18 the dollar amount of investment and year of installation.
 19
 20 b. Table 1 provides an estimate of metres of underground cable retired by year. A
 21 breakdown by type is not available. For the period 2003 to 2009, the quantity of
 22 underground cable retired was charged against the overhead cable account. The
 23 quantities for this period set out in Table 1 are estimated based upon the amount
 24 of underground and overhead cable installed in cable replacement projects in the
 25 respective years. Newfoundland Power is not able to provide the information for
 26 2001 within the time allotted for response to Requests for Information in this
 27 proceeding.
 28
 29

Table 1
U/G Cable Retired By Year
(metres)

<u>Year</u>	<u>Primary</u>	<u>Service</u>
2001	n/a	n/a
2002	3,458	724
2003	2,949	1,761
2004	2,329	634
2005	1,904	930
2006	1,203	489
2007	1,631	389
2008	1,127	340
2009	2,163	954
2010	3,783	2,971

- 1 c. The requested information is not available, as Newfoundland Power does not
2 track the information requested.
- 3
- 4 d. Newfoundland Power does not have a specific policy on the abandonment of
5 underground cable in place. The decision on whether to abandon an underground
6 cable in place would be based on the specific circumstances and judged on a case-
7 by-case basis.
- 8
- 9 e. The requested information is not available, as Newfoundland Power does not
10 track the information requested.
- 11
- 12 f. The requested information is not available, as Newfoundland Power does not
13 track the information requested.
