

1 **Q. [Net Salvage] – Please provide a copy of any contracts the Company requires**
2 **associated with the relocation of its facilities at the request of a customer or a**
3 **governmental entity.**
4

5 A. The Company generally does not require a contract regarding each relocation of its
6 facilities at the request of a customer or government entity. Typically, a letter is provided
7 to the customer or government entity with the cost estimate and required conditions for
8 the relocation. Before the Company undertakes work on a relocation request, the
9 customer must accept the estimate and either provide proof of payment or, subject to
10 credit approval, the amount will be billed to the customer's account.¹
11

12 See the response to Request for Information CA-NP-051 concerning agreements and
13 policies governing the relocation of Company facilities at the request of customers.
