14  
15 The Company does not have specific information concerning the condition or mileage of  
16 the vehicles that were retired between 2001 and 2010. Vehicles are retired based on  
17 guidelines that are submitted with the annual capital budget applications. Based on these  
18 guidelines, heavy fleet vehicles that are retired were in excess of 250,000 kilometers  
19 and/or were in a deteriorated condition as a result of their age or usage.

20  
21 Generally, all vehicles are ordered as base models with air-conditioning as an option. The  
22 Company does not specify other options.
