

1 **Q. Please provide a breakdown of how much was budgeted, if any, by Newfoundland**
2 **Power for the years 2007 to 2012 by way of Operating Costs for extraordinary**
3 **storm events including for Labour, Materials and Equipment and Travel. In**
4 **respect of each of those years, provide a breakdown of what was actually expended**
5 **and provide a brief description of the storm events in question.**

6
7 A. Newfoundland Power does not forecast a budget for severe weather events.

8
9 Please refer to the responses to Requests for Information PUB-NP-005 and PUB-NP-030.

Newfoundland Power
Extraordinary Storm Events Since 2007

**Newfoundland Power
Extraordinary Storm Events Since 2007**

Event	Description	Operating Costs (\$000s)		
		Labour	Non-Labour	Total
Ice Storm, December 2007	On December 2, 2007, high winds and a massive ice buildup caused numerous downed power lines which resulted in power outages to approximately 20,000 customers mostly in the Clarenville, Bonavista North and Bonavista Peninsula areas.	185	27	212
Ice Storm, March 2010	This was one of the worst ice storms to hit the province in 25 years. It damaged 8 main transmission lines and left over 10,000 customers without power on the Northeast Avalon and Bonavista Pensisulas.	111	31	142
Hurricane Igor, September 2010	In September 2010, Hurricane Igor left approximately 100 communities across the island isolated or in states of emergency. Approximately 77,000 customers were left without power as a result of downed power lines caused by high winds and severe flooding.	1,166	632	1,798
Wind Storm, December 2011	A major wind storm in December 2011 damaged our electricity system and left approx. 41,000 customers without power across the island, with the majority of customers affected in the Corner Brook, Grand Falls-Windsor and Bonavista Peninsula areas.	263	109	372
