

1 **Q. [Account 379.1] – Please identify the plant in service by vintage as of the most**
2 **current date available in 2012 for Account 379.1 – Computer Hardware.**

3
4 **A.** Attachment A provides information on the hardware systems that constitute the plant in
5 service as of December 31, 2011.

6
7 Newfoundland Power’s plant ledgers are updated annually. Because the annual update
8 for 2012 has not yet been completed, plant in service data for 2012 is not available. The
9 information provided in Attachment A is the most current information available.

Plant Account 379.1
as of December 31, 2011

Account	Description	Purchase Year	Cost (\$)	Retirement Year
37910	Infrastructure Environment	2006	229,029.38	2012
37910	Personal Computers & Peripherals	2006	399,523.09	2012
