

1 **Q. Further to CA-NP-482, what are the costs for in relation to the Rattling Brook**
2 **Fishway in 2013 (f) and 2014 (f)?**

3
4 A. Newfoundland Power's 2012 Capital Budget Application included a project involving
5 construction of a fish passage for Atlantic salmon around the Rattling Brook
6 hydroelectric generation facility, as ordered by the Department of Fisheries and Oceans
7 under Section 20(3) of the *Fisheries Act*. The capital expenditure was approved in Order
8 No. P.U. 26 (2011).

9
10 The operating costs in relation to the Rattling Brook Fishway forecast for 2013 and 2014
11 are related to the transportation and handling of fish as part of the operation of the fish
12 passage, and for ongoing monitoring and maintenance of the fish passage.
