

1 Q. (Re: October 2014 Evidence submitted as part of Application) It is stated on page 1  
2 lines 22 to 23 that Hydro has negotiated a capacity assistance arrangement with  
3 CBPP and is having similar discussions with Vale. Is the capacity assistance  
4 arrangement with CBPP considered to be a regular rate option that is available to all  
5 industrial customers? If so, what are the terms and conditions relating to  
6 availability?

7  
8  
9 A. No. Hydro is not proposing a rate option for capacity assistance to become  
10 available for all Industrial Customers on an ongoing basis.
