

1 Q. (Re: October 2014 Evidence submitted as part of Application) It is stated on page 1
2 line 23 that Hydro is discussing a similar capacity assistance arrangement with Vale.
3 What is the monthly forecast of demand in MW and energy in MWh for Vale over
4 the next four years?

5

6

7 A. As the capacity assistance available from Vale is associated with the customer's
8 back-up generators and not associated with customer demand reductions, this
9 information does not provide or contain information that will assist or inform the
10 Board or the parties in gaining an understanding of the relevant issues before the
11 Board in this matter.
