

1 **Q. Do you have any reason to believe the 100MW generator will not be in service by**
2 **December 1, 2014?**
3

4 A. Newfoundland Power has no specific facts which indicate that the 100MW generator will
5 not be in service by December 1, 2014. However, Newfoundland Power recognizes the
6 installation of the 100 MW combustion turbine in advance of the 2014-2015 winter
7 season is ambitious.
