RE: An Application by Newfoundland and Labrador Hydro (Hydro) Pursuant to
Subsection 41 (3) of the Act for the Approval of the Internal Assessment
and Repair of Transformer VBN T1 at the Voisey's Bay Nickel Terminal Station.
Our Client: Vale Newfoundland & Labrador Limited ("Vale")

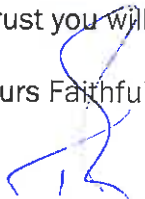

Receipt is acknowledged of your correspondence dated November 10, 2015 advising that Hydro has no further comments or submissions respecting the above application.

While Vale likewise has no further submissions to make it does nevertheless rely on Hydro's undertaking contained in its response to V-NLH-007 that Hydro will continue to keep Vale informed of the status of the investigation into the problems associated with this particular transformer. Additionally, Vale understands that in the event there are any changes in the scope of work for this project or if there are any increases in costs beyond those outlined in the Application, Hydro will discuss those changes with Vale before proceeding with the work.

Also, as identified in Hydro's response to V-NLH-006, Vale requests that it be provided with a copy of the failure analysis that it has requested as part of the project as soon as that analysis becomes available.

I trust you will find this satisfactory.

Yours Faithfully

Thomas J. O'Reilly Q.C.
