

1 Q. **Projects over \$50,000 but Less Than \$200,000**

2 Tab 8 Replace ABB Exciter Unit 2- Cat Arm:

3 What is the inventory of parts on hand for the ABB Exciter?

4

5

6 A. The available spare parts for the ABB exciter are shown on page 4, Table 1 of the
7 submitted report. There is, however, an error in the table. The quantity in inventory
8 for the Stabilizing Signal Adapter, ABB Part No. UN0089a-P, should be one rather
9 than zero. The spare parts list was confirmed by Kestrel Power Engineering during
10 their assessment and is shown in Appendix D of their report, which is located in
11 Appendix B of the report submitted for the proposal.
