

1 Q. **2015 Capital Plan**

2 Will any of the hydraulic plant on the Island, at some foreseeable time or milestone
3 after full commissioning of the Post-Isolated Island System, be used to meet
4 commitments or plans of Hydro (or of its parent Nalcor) to supply power to be
5 transmitted outside of the Province?

6

7

8 A. There are no plans to use Hydro's hydraulic plant on the Island to meet
9 commitments or plans of Hydro (or of its parent Nalcor) to supply power to be
10 transmitted outside of the Province. The output of Hydro's hydraulic plant on the
11 Island is necessary to meet native load.
