

1 Q. Reference: Rehabilitate Salmon River Spillway, Volume I, Section C, Page C-9

2 *“This project is the first two years of an estimated five year program to*

3 *rehabilitate the Salmon River Spillway Structure.”*

4 Provide the current estimate for all five years of the five year program and indicate
5 whether this project is considered by Hydro to be a multi-year project.

6

7

8 A. This project is a multi-year project to commence in January 2015 and to be

9 completed by August 2016, with a budget estimate of \$1,302,400. This project

10 addresses the short and medium term recommendations of Hatch. Hydro is in the

11 process of preparing a strategy document for all of its hydraulic structures to

12 support a long-term program approach for all of these structures. Further

13 refurbishment for the Salmon River Spillway will be proposed in future capital

14 budget applications.
