

1 Q. Reference: Upgrade Powerhouse Roofing, Volume I, Section C, Page C-11
2 *“This project comprises the first year of a three year program for the completion*
3 *of roof upgrades at the Holyrood Thermal Generating Station (Holyrood).*
4 *Upgrades consist of the replacement of all Holyrood Powerhouse roofing areas*
5 *deemed to have a remaining service life of less than five years.”*

6 Provide the current estimate for all three years of the three year program and
7 indicate whether this project is considered by Hydro to be a multi-year project.
8
9

10 A. Please see below table for current estimate for all three years of the three year
11 program:
12

	2015	2016	2017	Total
Upgrade Powerhouse Roofing	1,048	1,280	1,239	3,567

13
14 Hydro is seeking approval for a single year project to start and finish in 2015, as
15 shown in Capital Budget Single Year Projects over \$50,000 on page B- 2. The
16 planned expenditures in 2016 and 2017 for this program will be proposed as a
17 separate project or projects in future Capital Budget Applications.
