

1 Q. Reference: Increase Fuel Storage Rigolet, Volume II, Tab 18, Page 15
 2 *“The community government in Rigolet is building a new 7,800 foot recreation*
 3 *center which is expected to be connected by the summer of 2014. The total*
 4 *connected load will be 196 kW with 94 kW allocated for electric heat.”*

5 On the basis of the reasonably estimated average monthly consumption for the
 6 recreation centre, please provide a comparison of a monthly bill using the
 7 applicable rural rate and a monthly bill using the equivalent rate applicable to
 8 provincial government facilities.

9

10

11 A. See Table 1 for a comparison of a monthly bill using the applicable rural rate and a
 12 monthly bill using the equivalent rate applicable to provincial government facilities.

13

Table 1: Comparison of Average Monthly Rates ¹ - Rigolet Recreation Centre						
Rate Type	Basic Charge	kWh Charge	kW Charge	Subtotal Total Charge	Tax	Total Charge
Rate No. 2.2D - General Service Diesel Over 10 kW	\$ 29.45	\$ 4,154.00	\$ 1,041.07	\$ 5,224.52	\$ 679.19	\$ 5,903.71
