

1 Q. Volume I, Tab Holyrood Overview, page 6: Hydro states that: *“Initially and until*  
2 *the 2020-2021 timeframe, the plant will function as a fully capable standby facility*  
3 *during the early years of operation of the Muskrat Falls Generating Plant and the*  
4 *LIL between Labrador and Newfoundland. In this capacity, it can be called upon to*  
5 *provide energy and capacity to the Island in the event of a loss of supply from*  
6 *Labrador.”*

7 Further to the response to PUB-NLH-2 filed with Hydro’s 2014 Capital Budget  
8 Application, has a plan now been developed with regard to how the Holyrood plant  
9 will be operated as a standby facility? If yes, please provide a copy. If no, when is  
10 the availability of this plan anticipated?

11

12

13 A. To date, the formal plan has not been developed. It is Hydro’s intention to engage  
14 professional services to review the stand-by requirements for the Holyrood plant  
15 and evaluate what will be necessary to be in place prior to 2017.
