

1 **Q.     *Tab 4.1 Distribution Reliability Initiative***

2  
3 **At page B-5 for NCH-02, Newfoundland Power outlines that reliability statistics**  
4 **were driven by a vegetation related event in 2011. What was this vegetation related**  
5 **event?**

6  
7 A.     The event actually occurred during the tail end of Hurricane Igor on September 22<sup>nd</sup>,  
8 2010 and not 2011 as stated in *4.1 Distribution Reliability Initiative*. There were 658  
9 customers out for 839 minutes due to numerous downed trees during this event.
