

1 **Q. Tab 6.5 Geographical Information System Improvements**

2
3 **Will training be required for employees to fully and accurately update GIS**
4 **information while in the field?**

5
6 A. Yes, there will be employee training associated with this project.

7
8 As part of the GIS Mobile Project, training will be provided for employees to use the new
9 application that will be installed on computers in line trucks. This will include training
10 line crews with respect to updating the GIS database in the field.

11
12 As part of the Customer Connectivity Project, training will be provided to the temporary
13 and permanent employees responsible for collecting information on customer premises
14 and electrical connectivity.
