

1 Q. **Tab: Holyrood Overview, p. 6**

2 Under Phase 3 – Synchronous Condenser Operation Phase, Hydro lists the systems  
3 Holyrood that will be requiring decommissioning. Has Hydro developed cost  
4 estimates for the decommissioning of all the listed systems including for soil  
5 remediation associated with the site?

6

7

8 A. In 2013, Hydro consulted Stantec to perform a decommissioning study for the  
9 Holyrood Thermal Generating Station. Hydro's 2013 Amended General Rate  
10 Application contains Exhibit 14, Stantec's *Holyrood Thermal Generating Station*  
11 *Decommissioning Study*. The class 4 estimated cost for decommissioning at that  
12 time was \$32,074,130.
