

1     **Q.     Project C-24: Rehabilitate Shoreline Protection – Cat Arm**

2             With respect to “Alternative #5” set out at page 12 of the Report at Tab 7, Volume  
3             II, please provide further information with respect to the costs of obtaining the  
4             referenced pre-cast concrete armour units.

5

6

7     **A.**     As per *Section 4.3 Evaluation and discussion of remedial options* of the AMEC  
8             report, set out on page A16 at Tab 7, Volume II, the pre-cast concrete armour units  
9             were deemed to be unfeasible as a result of their impracticality and fiscal  
10            disbenefits. Based on the third party consultant’s assessment, no further  
11            information was sought with respect to the costs of obtaining and utilizing these  
12            units.
