

1 Q. **C-38; Volume I: Additions for Load Growth**

2 In response PUB-NLH-20 filed with the 2014 Capital Budget Hydro stated it was
3 continuing to make progress on the long term supply study for Labrador South and
4 would be filing the final report with the Board by the end of 2013. Please provide a
5 status update on this study or if available, a copy of the report.

6

7

8 A. Hydro is currently working on updating and refining the study, including looking at
9 load forecast sensitivities, and hoping to have an update completed early in 2016.
