

1 Q. Consumer Question: Re: Wind Farms: In your professional opinion, does the 2004  
2 study mentioned earlier conclusively demonstrate that it is impossible to effectively  
3 integrate more than 80 MW of on-island wind power?

4  
5 A. MHI reviewed the information provided by Nalcor and its finding in this area was that  
6 the limit of 80MW was reasonable.
