

1 Q. Consumer Question: Re: Fuel Price Forecasts: MHI points out that, under the low price  
2 scenario, the CPW gap (i.e. the benefit of the Infeed scenario) almost disappears. In  
3 section 1.6.3 of vol. II, MHI assesses the accuracy of Nalcor's past load forecasts. Has  
4 MHI carried out a similar analysis of the accuracy of PIRA's past fuel price forecasts? If  
5 so, please provide the results.

6  
7 A. MHI did not carry out a review of the accuracy of PIRA's past fuel price forecasts but  
8 information related to this question can be found in the response to RFI CA/KPL-Nalcor-  
9 64 which is available on the Public Utilities Board's website.
