

- 1 Q. Consumer Question: Would MHI review the table GRK-3, which is an expanded version  
2 of CA-KPP-27 Rev 1 presented by Mr. Philip Raphals on February 23, 2012 and  
3 comment on the following:
- 4 (a) The accuracy of the calculations contained in the new columns inserted by Mr.  
5 Raphals;
  - 6 (b) The response to be given by Nalcor prior to March 9, 2012, in assessing and  
7 confirming the accuracy of the table;
  - 8 (c) The implications of the information contained in the new table and in the table  
9 from Nalcor, which Mr. Raphals was using in terms of the financing of the  
10 project, and its impact on ratepayers;
  - 11 (d) The standards or benchmarks which should be applied where rates are not based  
12 on cost of service but are based instead on power purchase agreements; and
  - 13 (e) The potential impact on the CPW comparisons, if any.
- 14
- 15 A. MHI has completed its work as requested by the Board for the review of the Isolated  
16 Island and Infeed Options. The scope of this work did not include analysis of  
17 information provided in public presentations and comments.
