

1 Q. Consumer Question: In PUB/Nalcor-46 in the reply, " Nalcor has
2 prepared an annual cost of service model".

3

4 (a) Can Nalcor provide a copy of the annual cost of service model?

5

6 (b) Can Nalcor provide the detailed sections of the model used for the
7 \$214 MWh COS price calculation (or the detailed working papers)?

8

9

10 A. The material requested does not assist consideration of the Terms of Reference or
11 the Reference Question. Nalcor has selected an escalating price model as an
12 alternative to the cost of service model for the pricing of Muskrat Falls energy for
13 the reasons outlined in Exhibit 36.
