

- 1 Q. Consumer Question: PUB-Nalcor 46 answers the question: "If 'cost of service'  
2 ('COS') pricing were applied in determining the power purchase price, what would  
3 be the power purchase price paid by Hydro to Nalcor for Muskrat Falls power and  
4 energy in the first year of supply." The answer given is \$214 per MWh. Is this a  
5 blended cost or is it the cost of Muskrat Falls power on its own?  
6  
7  
8 A. Please refer to Nalcor's response to CA/KPL-Nalcor-126 (a).
