

1 Q. Consumer Question: NALCOR is requested to provide a CPW analysis for the
2 interconnected island option with no Muskrat Falls, with Churchill Falls power
3 available at a rate consistent with a Class L customer within Hydro-Quebec. This is
4 roughly 2.97 cents per kwhr.

5

6

7 A. This analysis does not assist consideration of the Reference Question. No power is
8 available to NL from Churchill Falls at a rate consistent with a Hydro Quebec L Class
9 customer.
