

1 Q. Consumer Question: Further to the preamble outlined in CA/KPL-Nalcor-194, has
2 Nalcor or the Government of Newfoundland and Labrador attempted to engage
3 Hydro Quebec in the optimization of water flow, apart from the 2009 PUB process?
4

5
6 A. As indicated in Nalcor's response to CA/KPL-Nalcor-202, Nalcor is of the view that no
7 opportunities exist to improve water management through engagement with Hydro
8 Quebec. As a result, Nalcor has not engaged with Hydro Quebec in relation to
9 water management, other than through the Board process which resulted in the
10 establishment of terms of the water management agreement between Nalcor and
11 CF(L)Co. Nalcor is not aware of any engagement by the Government of
12 Newfoundland and Labrador with Hydro Quebec in relation to water management.
