

1 Q. Consumer Question: Regarding the low NO_x burners in the Isolated Island Option, is
2 their installation and operation dependent on the ESP and Scrubbers, or can they
3 be installed first or solely without any impact on their effectiveness?
4

5
6 A. The installation and operation of low NO_x burners is not dependent on the
7 installation of ESPs and scrubbers. Once installed, low NO_x burners will reduce NO_x
8 emissions by about 50 percent, independently of the other pollution control
9 technologies.
