

1 Q. Consumer Question: Regarding the retirement of the Corner Brook Pulp and Paper
2 co-generation PPA in 2022, can that PPA be renewed or will the capacity be
3 permanently lost at that time?
4

5
6 A. While there is no renewal clause in the existing PPA, it could be possible to
7 negotiate a renewal in 2022. The suitability of commercial terms and the condition
8 of the cogeneration thermal equipment in 2022 would govern whether a new PPA
9 contract would warrant negotiation.
10

11 In the event that a new PPA is not negotiated, whether the capacity is kept in
12 service or permanently lost will be a decision to be made by Corner Brook Pulp and
13 Paper at that time.
