

1 Q. Consumer Question: Nalcor has used a 50 year projects (Muskrat Falls project and
2 Isolated Island Option) comparison period ending in 2067. Please provide the CPWs
3 for the Muskrat Falls project and the Isolated Island option with an end date of
4 2041.

5

6

7 A. If the analysis period is truncated at 2041 instead of the full analytical term to 2067,
8 the CPW preference of the Interconnected Scenario over the Isolated Island
9 Scenario is \$1,058 million. This is discussed further in Nalcor's response to MHI-
10 Nalcor-2.
