

1 Q. Please explain the progression or explain why the total cost estimate values for the
2 SOBI Crossing differ between the response to MHI-Nalcor-7 and that documented in
3 CE-44 page 31.

4

5

6 A. There are two reasons for the difference between the total cost estimate values for
7 the SOBI Crossing in the response to MHI-Nalcor-7 and that provided in CE-44, page
8 31. The values contained in MHI-Nalcor-7 are the final DG2 estimates using CE-44
9 as input. In addition the values contained in MHI-Nalcor-7 include the transition
10 compounds, whereas the values in CE-44 do not included the transition
11 compounds.
