

1 Q. With respect to Exhibit 18 (HVDC), have the cost estimates and system
2 configuration been upgraded to the current project definition? The original report
3 had the converters at Gull Island and the transmission line was a different voltage.
4 Please provide definitive design report(s) on the final configurations and costs for
5 the HVDC Labrador Island Transmission System.

6

7

8 A. The cost estimates are based on current project definition and composition of the
9 estimates. Please refer to the response to MHI- Nalcor- 7. There is no definitive
10 design report as this work was done internally however document CE 32 (Exhibit
11 23) HVdc System – Historical Summary outlines the sequence of events leading to
12 the current project definition.
