

1 **Re Page B-36:**

2 Q. Had Hydro determined before commissioning of the report at Section H Tab
3 2 that a phased program of remedial works over a four-year period would be
4 undertaken as referred to in the Introduction to the report in paragraph 2?

5

6

7 A. During the course of the assessment carried out in SGE Acres, it became
8 evident that the required upgrades would be extensive. In such a case, it is
9 common to implement the work as a multi-year project. This decision was
10 made by Hydro following consultation with SGE Acres but prior to the
11 issuance of its report.
