

1 **Re Page B-212:**

2 Q. What amount has Hydro or its insurers paid out relative to liability claims
3 since 2001 which would likely have been avoided if the measures proposed
4 in this project were implemented.

5

6

7 A. To date, neither Hydro nor its insurers have paid any liability claims that
8 would have been avoided if this project were implemented. This project is
9 intended to strengthen the protection of Hydro's critical energy infrastructure.
10 It is not intended to address Hydro's insurance issues.
