

1   **Re Page B-212:**

2   Q.    Can anything that occurs on the Island Interconnected System impact any  
3       other utility in Canada or elsewhere?  
4

5  
6   A.    No. The Island Interconnected System is a completely isolated system and is  
7       not connected to any other utility system in Canada. Therefore, any  
8       disturbance or interruptions have no effect on any other utility systems.
