

1   **Re: Page B-175, Corporate Application Environment, \$290,000**

2   Q.   How does the first item, Lotus Notes Upgrade, on page B-176 relate to item  
3       4, Lotus Notes Change Management, found on page B-172?

4

5

6   A.   The Lotus Notes Upgrade from Application Environment is an upgrade to the  
7       newer version of the application to take advantage of performance and  
8       functionality.

9

10       The Lotus Notes Change Management from the Application Enhancement  
11       proposal is a separate add-on tool to the product. This will manage and  
12       control application changes.
