

1 **Re: Page B-20, Replace Cooling Water Piping System, \$193,400**

2 Q. Has Hydro undertaken, using consultants or its own staff, a condition review,
3 including recommendations, of all of the mild steel piping in its systems that
4 is used for turbine/generator cooling water? If so, please provide a copy.

6

7 A. A cooling water system study was performed in 2002 by Hydro staff. Please
8 see Attachment 3 to PUB NLH 6.0 for this report.
